- Alberta School Council Engagement Grant

We anticipate having \$1000 this year - the decision of how to spend this money is up to council, and we would like to consult the school community to find out how to make the best use of these funds. A survey will be created with the following options - should anyone else have a specific idea that fits within allowable parameters we are happy to include it.

Options include:

- workshops for parents to increase capacity for school council members;
- information sessions on how parents can support student learning at home and at school;
- parent resources and workshops on important topics such as, mental health and well-being, cyber bullying, healthy living, etc.;
- programs to support multicultural and Indigenous families including, English language learners and First Nations, Métis and Inuit learners;
- parent resources and tools in multiple languages;
- events to engage parents on important local issues;
- conference fees;
- parent engagement in promoting the value of arts;
- trainer/facilitator costs for the professional development, workshops or sessions associated with the above.
